SUMMARY

Motivated CSE student at SRM AP University with experience in C++ and web development. Eager to leverage skills in web technology and Full Stack and technical expertise to contribute to impact full software projects. Seeking opportunities to grow in Full Stack development and bring value to a dynamic organization.

SKILLS

- HTML • CSS • SASS
- JavaScript
- React JS • C++
- familiar with JAVA

PROJECTS

PROJECT 1

[Link to Demo](#)

A dynamic web application that allows users to take quizzes, view results, and track progress, built using the MERN stack. The application features real-time quiz validation and interactive UI components for an engaging user experience. It also supports user authentication, enabling personalized quiz history and progress tracking.

PROJECT 2

[Link to Demo](#)

Loan Prediction System Built a machine learning model in Python to predict loan approvals. Used data preprocessing techniques and trained the model with classification algorithms to improve accuracy.

PROJECT 3

[Link to Demo](#)

Student Portfolio Created a personal portfolio website showcasing student projects and achievements using HTML, CSS, and JavaScript. Designed a responsive and modern UI to highlight skills and experiences.

EDUCATION

2025- present	B-TECH (CSE) at SRM UNIVERSITY	(GPA: 6.0/10.0)
